INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.

PCT/IB2004/000736

Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims	1-9	YES
	Claims		NO
Inventive step (IS)	Claims	1-9	YES
	Claims		NO
Industrial applicability (IA)	Claims	1-9	YES
	Claims		NO

2. Citations and explanations (Rule 70.7)

1. In the present report, reference is made to the following document:

D1: US 3 815 794 A (CARLISLE R) 11 June 1974 (1974-06-11)

2. D1, which is considered to be the most relevant prior art, describes a flexible container from which the subject matter of independent claim 1 differs in that it describes one or more obstacles within the internal volume of the container close to a spout.

The subject matter of claim 1 is therefore novel (PCT Article 33(2)).

The present invention proposes an alternative construction for a self-sealable pouring spout. This solution is neither known from nor suggested by the prior art. The subject matter of claim 1 thus involves an inventive step (PCT Article 33(3)).

3. Claims 2 to 11 are dependent on claim 1 and thus also comply, as such, with the PCT requirements of novelty and inventive step.
